

ACME HISTORY

Acme Analytical Laboratories (“Acme”) has a long history of serving mining and exploration customers. Over history Acme has built a reputation for excellent value with a combination of innovation, automation and the right people. Today, Acme is a multinational laboratory service company, providing its geochemical and assaying services to mining and exploration companies, geologists, investors and stock exchanges.

EMPLOYMENT OPPORTUNITY

We are currently recruiting for **Laboratory Assistant (Digester)** in the Digestion department of our Geochemical Lab at the **Vancouver** facility. The various duties of this position include, but not limited to, preparation and transfer of analytical solutions as assigned by supervisor.

This is a full time position, 40 hours per week.

Qualifications:

- Completion of high school
- Able to speak, write & read English
- Chemistry knowledge and/or lab experience an asset
- Able to work independently and with others
- Detail oriented
- **Must be able to work all shifts and weekends**

Specifications:

- Fast-paced & hot environment that requires the ability to work under pressure with tight deadlines
- Duties include working with chemicals & some handling of equipments
- Must be available to work any day of the week
- Other duties as required or assigned by Department Manager/Shift Supervisor

Remuneration:

- Starting wage of approximately \$14.00 per hour (combination of a base wage and daily production bonus based on productivity)

Interested candidates should send resumes and cover letters via e-mail to hrdept@acmelab.com. The job title “Digester” should be stated in the subject line to avoid automatic deletion as junk/spam mail.

Please note that walk-in applications and e-mail applications without the job title in the subject line will not be accepted.

We would like to thank all interested parties that have submitted resumes but only qualified applicants will be contacted for an interview.
