

Bureau Veritas Minerals to Exhibit at the Minerals South Conference & Trade Show in Cranbrook, British Columbia 2015

Cranbrook, British Columbia, October 23, 2015 – Bureau Veritas Minerals, global leaders in geochemical and assaying laboratories, will exhibit its analytical services and support for local BC mining industry at the Minerals South Conference, Heritage Inn Hotel & Convention Centre, November 3 – 5, 2015.

Bureau Veritas Minerals' seniors management team will meet you to discuss a broad range of solutions and services available to the mining community, including: Geochemical, Metallurgical & Mineralogical Services, Technology and Innovation: ICP-ES, ICP-MS, LA-ICP-MS, Mine DSi & XRF, Enterprise Management System (LIMS/EMS), Quality Assurance following ISO 9001:2008 & ISO 17025:2005 and On-Site Services.

The Mining Industry will have the opportunity to stop by the booth to meet with our group to discuss how any of our services new and existing can help them to optimize their operation and exploration projects. We continue to service and support the BC clients with our outstanding management team who is very involved in the local community," said Angelo Karitsiotis, Business Development Director, NANLA (North America & North Latin America) Upstream Minerals.
